known by His **LOVE**

ZIMBABWE OUTREACH

CITY TRANSFORMATION

As a church, we believe that the Great Commission in Matthew 28 calls us not only to reach those around us, but also to share the Gospel in other nations.

Our mission is twofold: to proclaim the Good News and to strengthen and support the local churches and organizations we partner with.

He serves communities with free eye care and spectacles through medical camps in towns and rural areas.

With the help of the Generosity Fund, Kingdom Vision Foundation is able to extend its reach beyond South Africa to impact many more lives.

Ando Hadebe, a local church leader from Bulawayo, is part of our CCM Learning Community Group.

Through the Generosity Fund, we were able to support his participation in a CCM Learning Community Conference in South Africa. This created opportunities for him to connect intentionally with other leaders, and the experience has greatly inspired him to grow in leadership and mentorship within his own community.

Looking ahead to 2026

Our connection with Ando will continue to grow in the coming years, as we plan to host him in Bloemfontein to strengthen our friendship and mentorship journey.

We also look forward to reconnecting with both him and Dr. Beaty during next year's annual Zimbabwe Eye Clinic outreach.

FEEDBACK

For many years, Zimbabwe has been a vital part of this calling. We have built deep relationships with local leaders, shared the Gospel, supported building projects, and, in return, have been shaped and inspired as a team.

Although this year's annual outreach trip to Zimbabwe could not take place, our personal connections remain strong.

Through the Kingdom Vision Foundation and our City Changers Movement (CCM) Learning Communities, we stay closely connected and ensure that our impact in Zimbabwe continues to grow.

Kingdom Vision Foundation is led by Dr. Beaty, an ophthalmologist from the USA, who spends nearly six months each year in Zimbabwe.

KINGDOM VISION FOUNDATION IS LED BY DR. BEATY, AN OPHTHALMOLOGIST FROM THE USA, WHO SPENDS NEARLY SIX MONTHS EACH YEAR IN ZIMBABWE.
