

FEEDBACK

- Christie-Lee Van Aardt, Christi-Lee Greyling, Micaela De Wilde, Anje-Mari Fourie and Ziphezinhle Malinga form the TREE team at Fichardtpark Primary.
- We have weekly UCSA gatherings with around twenty Grade 3–7 learners and three teachers. These gatherings include fun activities, Bible-based teaching, small group discussions, and worship.
- The TREE team partnered with the Moms Who Care along with parents and teachers from the school to start a new program called the Boys & Girls Club.
- The Boys & Girls Club is a discipleship program focused on identity. In it, we teach learners how to identify lies, replace them with God’s truth, break free from comparison, and pray.
- We also started a new anti-racism program with Grade 1–3 learners, where we had the privilege of writing our own curriculum based on the book *Creative God, Colourful People*.

Through consistent weekly gatherings and special events like the Boys & Girls Clubs, we hope to create opportunities for the learners to encounter Jesus and discover their true identity in him.

Primêre Skool

Looking ahead
to **2026**

- We trust that both our numbers and capacity will increase in our weekly UCSA program and hope to see our UCSA teachers actively engaging with and discipling learners.
- We also aim to make the Gospel more experiential by incorporating a broader range of worship expressions and practical applications of the Word.
- We would like to strengthen the Boys & Girls Club as a sustainable, school-based discipleship model.
