

FEEDBACK

The TREE team at Grey College Primary is Katleho Motake, Matthew Swarts, William Madjiet, Anje-Mari Fourie and Oscar Modau.

On Fridays from 12:20 - 13:00, TREE runs a discipleship program called Jesus Generation which includes both the Grade 1–3 English and Afrikaans learners.

The team gathers the learners in the hall and begins with icebreakers, followed by worship, the Word, and prayer.

We celebrate doing our first Boys Club which was a great success and the school is looking forward to doing one every term.

We also celebrate our team growing and stabilising its numbers.

There is healthy trust from the teachers partnering with TREE and more teachers have been showing interest and support.

Attendance Overview 2025:

Kids: Attendance ranged from 179 to 444 children per session.

Teachers: Participation varied between 7 to 19 teachers.

A focused Boys' Club session engaged 65 Grade 7 boys, with strong teacher support (9 teachers).

GREY COLLEGE

Primary School

Looking ahead to **2026**

- The Vision for Grey College Primary is to focus deeper on the health of the school, more specifically on the teachers' work environment.
- We would like to invest more in the school through Teacher Invests, Health Checks and Team Building sessions.
- We would also like to make the Gospel more experiential through a wider range of worship and more practical application of the Word.
