LESOTHO OUTREACH

CITY TRANSFORMATION

Our Lesotho outreach exists to equip and encourage local church and NGO leaders while also serving communities through children's ministry, youth life skills, and practical projects.

Each year, we take a team of young people from our church who bring energy and hands-on support, building long-term relationships with leaders and families in Lesotho.

Looking ahead to 2026

We want to:

- Continue with our annual July outreach trip, strengthening children's ministry, youth investment, and practical community projects.
- Build deeper relationships with local leaders by visiting more than once a year.
- Launch a Lesotho-based Learning Community for pastors and NGO leaders, multiplying equipping and support on the ground.
- Keep partnering with both local churches and the children's NGO we are connected with, to see long-term transformation in communities.

FEEDBACK & VICTORIES

This year's outreach team consisted of 26 people.

- Every morning, we ran children's ministry programmes in various villages, reaching and teaching many children with the gospel.
- For teens, our team invested in them through Life Skills training, led by Oscar Mudau (our PopUp facilitator).
- This provided young people with tools for making wise choices and building their future.
- We partnered with five local churches, where our team members preached, shared testimonies, and encouraged the congregations.
- Alongside the outreach, we welcomed two Lesotho leaders into the City Changers Movement Learning Community, which meets monthly online.
- They joined leaders from Zimbabwe and Bloemfontein in receiving leadership input and encouragement.

EQUIP & ENCOURAGE THE LOCAL CHURCH + NGO LEADERS, AND SERVE THE COMMUNITY
